Sir:

Responsive to the Official Action of March 27, 2003,
please amend the above-identified application as follows:

IN THE CLAIMS:

Amend claim 12 as follows:

--12. (amended) An armrest for an inside wall of a motor vehicle, the armrest being of elongate shape along a main longitudinal axis, presenting a first end region along said axis, and comprising a connection member adapted to connect said first end region to the wall, wherein the connection member defines a pivoting connection about a substantially horizontal transverse axis enabling the armrest to move angularly relative to the wall, and wherein the armrest includes a locking member and a stop piece, said stop piece being adapted to be secured to the wall and said locking member being adapted to co-operate with said stop piece so as to hold the armrest in modifiable manner in a
